ANSIONINAX DROPS is an innovative food supplementation based on:

- **G COATED MELATONIN:** in order to overcome the poor solubility in water and the consequent lack of homogeneity in the dosage, we have developed a granular melatonin coated with arabian gum using fluid granulation technology at low temperatures. Melatonin contributes to reducing the time to fall asleep.

- **SAFFESERENE**, an exclusive Iranian Saffron extract obtained using only the terminal part of the filament, the most valuable part called "Sargol". This is the most studied Saffron extract in the world with numerous clinical studies. It helps to manage stress, supporting mood balance and promotes normal psychological functions.

- **VEGETAL TEANIN:** L-Theanine amino acid extracted from green tea leaves with sedative properties. It reduces mental and physical stress and can produce a feeling of relaxation.

DOSAGE

It is recommended to take 10 drops daily to be diluted in water, an hour before falling asleep.

Do not exceed the recommended daily dose.

**FOR ADULTS AND CHILDREN
GLUTEN FREE
NATURALLY LACTOSE FREE
NO ADDED SUGARS
WITHOUT ARTIFICIAL SWEETENERS**
