

# Astenomirt

It is a dietary supplement based on Taurine, Crocetin and Anthocyanosides from blueberries, useful due to its antioxidant properties and to promote the eyes weel-being.

Thanks to its composition it reduces fatigue and improves vision:  
Crocetin increases ciliary muscle blood flow.  
Myrtopure 36 promotes retinal rhodopsin regeneration. It is obtained from fresh fruits of Vaccinium Myrtillus and a prestigious laboratory of Berlin guaranteed the quality of this extract.  
Taurine improves neurones flow along the axon at synapse level.

## DOSAGE

It is recommended to take 1 vial a day.  
Do not exceed the recommended daily dose.
