

Cicaialo Sole

Promotes the restoration of skin barrier and skin hydration. Calms and soothes erythema, sunburn and redness.

Cicaialo Sun based on Glycerophosphoinositol (GPI), an innovative active ingredient of plant origin, obtained from the lecithine of sunflower seeds. It inhibits the release of the main inflammatory mediators, inhibiting skin erythema and with a protective effect on damage caused by UVB radiation. The formulation is completed with Rice bran oil, Oat extract, Vitamin E and Vegetalialo

DOSAGE AND INSTRUCTIONS FOR USE

Apply the product on the treated area, gently massaging until complete absorption. Repeat the application as needed.
If the symptom persists, contact your doctor or pharmacist.
