## Active ingredients:

**Drosera** has a spasmolytic, antibacterial, anti-inflammatory activity on bronchial level. It is effective in case of cough, bronchitis and asthma.

**Echinacea Angustifolia** has Immunity stimulation activity following a viral or bacterial attack with Cortical-similar action effective as preventive treatment and in the acute stage of a cough and a cold.

**Grapefruit seeds** have selective antibacterial and antiviral activity (A2-Aichi-2-68 influenza virus). It is effective on a common cold and viral and bacterial sinusitis.  
Wild Thyme have a Selective antibacterial activity on staphylococcus aureus and pseudomonas aeruginosa with expectorant action.

**Mugo pine** and white thyme essential oils with antimicrobial activity; they are absorbed on pulmonary level with mucus fluidification action.  
Seawater hypertonic solution have a decongestant action encouraging mucus production.

**HOW TO USE:** Take a single-dose vial and open by gently turning the cap until detached.

Aerosol: Pour the contents of the single-dose vial, without diluting it, into the special container for the aerosol device. Follow the directions for the device and inhale until the vial is completely empty. The product can be sprayed using all types of aerosol devices (piston and ultrasound). It is advisable to follow the directions provided in the aerosol device used.

Directions for using FITOAEROSOL In case of partial use of the single dose vial, close the vial again using the cap (upside down) and store in the refrigerator. In any case, use the remaining product within 24 hours of first opening.

**DOSAGE:** 1- 2 applications by aerosol per day

For the rapid relief of problems (especially colds and removal of excess mucus), the recommended dose is 2 vials a day (morning and evening) for seven consecutive days.

For individuals who are predisposed to irritative conditions such as allergic rhinitis and sinusitis, 1 vial per day for 15 days is recommended as a preventive measure, to be repeated at least 3 times a year.

**GLUTEN FREE  
FOR AEROSOL THERAPY**
