

Fitopid Shampoo

Shampoo with a delicate and effective cleansing action which finishes off the anti lice treatment carried out with Fitopid spray removing any oily residue.

The formula is enriched with plant extracts (Quassia and Grapefruit), vegetable oil (Andiroba) and essential oil (Eucalyptus Citriodora Maculata) which, besides facilitating the removal of lice and nits treated by the spray, are noted for lice's dislike of them.

Andiroba Oil with Suffocation action.

Eucalyptus Maculata Citriodora Essential Oil with Repellent action.

Quassia Amara with Antiparasitic action.

Grapefruit Seeds with Antibacterial action.

HOW TO USE

Apply Fitopid shampoo on wet hair. It can be used as a prevention 3 times a week or after each treatment with Fitopid spray.

Use the comb to remove any lice and nit residue after washing. Repeat the treatment after 7 days.
